KWASSIE Art Studio, Vienna

A creative experience

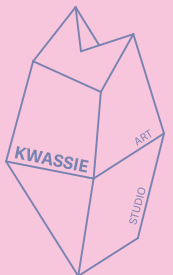

Our tailored workshops bring people together to learn, experiment, and create at our Vienna studio, or at your location in Vienna or Austria. We provide a unique blend of art techniques, creative exercises, and fun-filled experiences to spark imagination and nurture artistic talent. From intimate gatherings to corporate team-building sessions, every workshop is designed to cultivate a sense of community, foster new skills, and leave participants with a memorable experience and a tangible piece of art.

Join us to explore the world of painting, drawing, collage, mixed media, and more—all guided by experienced instructors and professional artists dedicated to your personal artistic journey. It's not just about the finished product; it's about the joy of creating together.

At our studio or your location

We work closely with you to design an event that aligns with your company's vision or group's interests. We can host up to 8 people in our studio in Vienna's 3rd district, perfect for small teams or businesses, or a group celebration. We can also host an event on your site. From hands-on creative workshops to experiences for your client, each experience is crafted to foster connection, creativity, and conversation.

Options

We have many engaging beginner-friendly themes and topics you can choose from but we can also create a bespoke theme and event specifically for you and your team or group!

THE BIGGER PICTURE

Duration: 2,5 - 3 hours

In this exercise, we put the canvases next to each other and each team member takes turns drawing lines across all pieces. We draw many lines until we have a nice abstract composition.

Each team member chooses their own colours and paints their own painting.

This exercise is all about letting go of a part of the ownership over our work - for the bigger picture. It might seem hard at first, but we come to understand that we can quickly let go and embrace the predetermined structure. We also see that our own contribution is as important to other's own work and success. A game of letting go of ego and really focusing on the big picture — literally — because when the painting is done, the individual works are a result of a joint effort, but they function even better when put together, revealing the original composition we started with.

STILLNESS IN LAYERS:

Textured Painting

Duration: 2 - 2,5 hours

This workshop is designed as a relaxed, creative team experience that encourages connection, focus and hands-on exploration through mindful painting. Working together in a calm, supportive environment, your team will experiment with richly textured techniques that invite play, curiosity and creative confidence.

Guided step by step, you'll learn how to:

- Use palette knives to create bold texture, movement, and expressive marks
- Build depth and sculptural surfaces with modelling paste
- Explore engraving (sgraffito) techniques to scratch, carve, and reveal hidden layers

No prior painting experience is required. This workshop is ideal for teams looking to slow down, recharge and collaborate in a new way. Everyone will leave with a unique textured artwork - and fresh creative tools that spark imagination long after the session ends.

COLLAGE&CONNECT

Duration: 2 - 2,5 hours

This collage-based team event invites participants to create compositions by combining cutouts and drawing into a meaningful whole. Working with images and unexpected combinations, the process highlights how individual pieces - when brought together - can form something cohesive, imaginative and new. It's a playful, hands-on experience that mirrors teamwork: many parts, one shared creation.

GENERATIVE PAINTING

Duration: 2,5 hours

This team painting activity is playful, collaborative, and creatively freeing. Team members take turns drawing words from three categories, forming a shared prompt (for example, "prickly black"). Everyone then paints their own interpretation of the same phrase.

The exercise highlights how one shared idea can lead to many unique outcomes, encouraging abstract thinking through colour, texture and emotion. While each artwork is individual, the prompts are created together. The session ends with a group reflection, where participants share their process and experience.

There's no right or wrong - every piece has equal value and celebrates the unique perspective each person brings to the team.

MEDITATIVE GEOMETRY

Duration: 3 hours

With this class, each group member slowly constructs a world of blocks, and then we work on shading and getting the three-dimensional illusion, the illusion of space.

We called it meditative because the process is very relaxing, there is not much to think of in terms of the composition as there are templates to choose from, so the painting process is about colouring in the surfaces, which is a slow, relaxing process.

WATERCOLOR&WINE

Duration: 2-3 hours

This workshop is a studio favorite! In this session, you will work with watercolours, known for their unique translucent nature. You will also get to experiment with drip watercolours, an extremely fun and versatile technique which allows for a lot of self-expression and teaches you to let go!

You will learn how to paint simple but intriguing botanicals. Through these exercises, you will learn the basics of watercolour painting. These exercises will boost your painting confidence, even for the most un-believing!

This workshop is suitable for absolute beginners as well as those with prior watercolour knowledge. It's a perfect idea for a friend's night out, a family evening or corporate event.

SLOW DRAWING

Duration: 2 hours

The Slow Drawing session is all about slowing down through drawing.

By using a simple technique, fine-liners and paper, each drawing is built dot by dot or line by line. Seeming complex on first glance, the drawing techniques break down drawing to repetitive instances and technical exercises, that makes it possible for everyone to follow. Interesting prompts such as “imagine a squirrel running through the forest” spark our imagination and make the experience a really fun one for the whole group!

The technique cultivates patience and makes us more mindful - it also puts the pressure off of having to finish a drawing, and is rather seen as a continuous work in progress. In the session, you will also get a good understanding of the tools and techniques which you can further use in cultivating your own slow drawing practice.

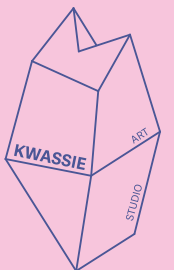

About KWASSIE Art Studio

KWASSIE Art Studio is an artist-run art studio founded in 2022 in Vienna that hosts group and private art classes, workshops and courses focusing on Fine Arts, expression and creativity as self-care.

Based on years of experience in the art world, KWASSIE Art Studio was founded by Vienna-based, award-winning artist and Fine Arts graduate, Isidora Krstic out of a desire to introduce people to creativity as a practice of mindfulness and self-care. She combines her extensive experience in classical fine arts technologies with contemporary artistic practices and produces multi-faceted art experiences for individuals and groups.
